

## Features

HydraCoach® is the first “Intelligent Water Bottle” that calculates your personal hydration requirement and paces you throughout the day to achieve your goals. It calculates your personal hydration needs, tracks your real time fluid consumption, paces you throughout the day and motivates you to achieve and maintain optimal hydration. The HydraCoach® monitors the exact amount of fluid consumed and provides real-time feedback to ensure you are on-track to experiencing all the health benefits of proper hydration. Whether you are a professional athlete or a desk-jockey, the HydraCoach® will motivate you to achieve and maintain optimal hydration all day, every day. The HydraCoach® is the only product of its kind and breakthrough in personal hydration monitoring.
